

BRYAN GUNNING FOR HITCHCOCK.

Commoner to Oppose His Presidential Longings.

Says Nebraska Senator Wrong on Dry Question.

"Wet" Edwards is to Address "Order of Camels."

(BY A. P. DAY WIRE.)

LINCOLN (Neb.) March 9.—Opposition to United States Senator Hitchcock as a candidate for the Democratic Presidential nomination was expressed by William J. Bryan in a statement made public here today.

Mr. Bryan announced that if elected a delegate to the Democratic National Convention he would not vote for Senator Hitchcock. "If the state instructs for him," he declared, "I shall allow an alternate to vote in my place."

Among reasons given for his opposition to Senator Hitchcock were that he voted against submission of the Federal prohibition and woman suffrage amendments, and had opposed the cutback of his acceptance during President Wilson's first administration. Referring to prohibition, Mr. Bryan said:

"Forty-five States have ratified the prohibition amendment to the Constitution; it would be an insult to these States for the Democrats to put up a man, who, like Senator Hitchcock, voted against the submission of the national amendment."

Senator Hitchcock had adopted constitutional prohibition by a 28,000 majority.

ORDER OF CAMELS ACTIVE.

(BY A. P. DAY WIRE.)

MILWAUKEE (Wis.) March 9.—Gov. Edwards of New Jersey today advised the headquarters of the Order of Camels here of his acceptance of an invitation to participate in the organization banquet of the order in New York City March 30.

More than 2500 men are expected to attend. Other speakers will discuss the principles of the order and the repeal of the Eighteenth Amendment on prohibition. In his letter of acceptance, Gov. Edwards declared it was his intention to carry the battle to the Democratic National Convention.

JOHNSON REBIDS AND TEARS.

(BY A. P. DAY WIRE.)

ST. PAUL, March 9.—Senator Johnson of California, in a statement given out here today, declared he "welcomed" the action of President Wilson in forcing the treaty of peace and covenant of the League of Nations into the 1920 campaign.

"President Wilson accentuated what was already a fact," said the California Senator, who has been making speeches in Minnesota as candidate for the Republican Presidential nomination. "For many months the League of Nations as presented by him has been an issue, although our party's friends have shivered at the thought."

"It's here now. Every red-blooded American citizen welcomes it."

CHICAGO, March 9.—The Social

ist party will hold its first Presidential nominating convention since 1912 in New York City May 3, the National Executive Committee decided here today.

An effort will be made to enlist the "radical and progressive element" of the American Federation of Labor in the Socialist fight, it was announced.

National committeemen report a "widespread and insistent demand" for the nomination of Eugene V. Debs, now a prisoner in Atlanta penitentiary, for "alleged violation of the espionage law." It was announced. He is the only candidate in the field.

NEVADA REJECTS PRIMARY.

(BY A. P. DAY WIRE.)

RENO (Nev.) March 9.—By a vote of 10 for and 27 against, the State Democratic Central Committee today rejected a proposal for a State primary and State convention to select delegates to the San Francisco convention. By the same vote the State committee decided to resolve itself into a convention to name the delegates. The delegates will be named this afternoon. A fight is predicted over the question of naming six for "alleged violation of the espionage law." It was announced. He is the only candidate in the field.

The State Central Committee, sitting as a State convention, selected twelve delegates to the San Francisco convention, each with half a vote. No alternates were chosen. The delegates will go unopposed and be bound by the unit rule.

The first of the Presidential primaries for the election of delegates to the Republican and Democratic national conventions were held in this state today. The vote was light and the returns were late.

With one exception the Republican candidates were either pledged for Mr. Gen. Leonard Wood or to support the Democratic ticket. The exception was John W. Flaherty, of Nashua, a candidate for delegate at large, who was pledged for Simon Johnson. In the early returns Flaherty's vote was comparatively small.

On the Democratic ticket all candidates for delegates at large were unopposed. In the first Congressional District, Gordon Woodbury of Bedford, pledged for Herbert Hoover, was elected without opposition. In the second Congressional District Robert Jackson of Concord, and Raymond B. Stevens of Landaff, both pledged for Hoover, were leading. Henri Aburque of Nashua, unopposed.

TOO LATE TO WITHDRAW.

(BY A. P. NIGHT WIRE.)

LANSING, March 9.—Secretary of State Vaughan today informed William G. McAdoo, that his name could not now be withdrawn from the Presidential preference ballot in the April primary. Mr. McAdoo had requested his name be stricken from the list of Democratic candidates "because of the feeling that the primary was an attempt to forestall the action of the national convention."

WOOD IN WISCONSIN.

(BY A. P. NIGHT WIRE.)

KENOSHA (Wis.) March 9.—A plea for a sound conservative government was made by Gen. Leonard Wood, candidate for the Republican nomination for President, in an address tonight.

"There is no time for loose talking, shallow thinking or loose experiments," he said. "We want to get down to basic principles. They are homely and unattractive to those who seek sensationalism. But they are extremely attractive to those who believe in ordered government, founded on law and order, based on respect for property and the rights of individuals."

SACRAMENTO, March 9.—A telegram from Thomas Martin, secretary of State of New Jersey, asking the final date for filing nominating petitions for the Presidential primary election in California, was received today by Secretary of State Frank C. Jordan.

Martin, it was said, has been interested in the aspirations of Gov. Edward I. Edwards of New Jersey for the Democratic nomination for President, but there was no indication in today's message that petitions would be filed in California.

WEST VIRGINIA FOR DAVIS.

(BY A. P. NIGHT WIRE.)

PARKERSBURG (W. Va.) March 9.—A cablegram was dispatched tonight to John W. Davis, Ambassador to Great Britain by the West Virginia Democratic State Committee, to ascertain his views relative to entering the race for the Democratic nomination for President.

Ambassador Davis was endorsed for the Democratic nomination by the State committee at its convention late today. The convention had been called for the purpose of endorsing Gov. John M. Cameron for the candidacy, but the letter received from the State executive eliminated him as a Democratic candidate.

INDIANAPOLIS, March 9.—Thomas Taggart today announced his name as a candidate for the Democratic nomination for U. S. Senator from Indiana because of ill health.

NURSE'S LIPS SEALED AS TO BABY'S FATHER.

RED CROSS GIRL EXONERATED BY JURY OF DEATH OF CHILD.

(EXCLUSIVE DISPATCH.)

WASHINGTON, March 9.—Arrested but exonerated yesterday by a coroner's jury for the death of her baby, Miss Grace Crews, an American Red Cross nurse in France and assistant superintendent of a children's hospital here steadfastly refused to disclose the identity of the baby's father, who is a Chicago physician.

Miss Crews' baby was born a month ago but died immediately afterward. She placed it in a trunk where the body was discovered by a physician who was called to attend the mother. Testimony yesterday convinced the jury that the baby died of natural causes.

Miss Crews, who comes from a good family in North Carolina, zealously guarded the identity of the child's father, although she admitted that he was a Chicago physician. She met him in France when he was assigned to duty at a hospital where she worked as a Red Cross nurse.

"I intend to shield the name of the baby's father," Miss Crews declared. "Why should I blast his future career? It would do me no good to expose him."

At the time she met the Chicago doctor Miss Crews did not know he was married. This was not disclosed to her until she was about to become a mother.

Mother Church Official Says He Does not Scoff at Use of the Ouija Board.

(EXCLUSIVE DISPATCH.)

NEW YORK, March 9.—As part of the long-standing difference of opinion in the Christian Science Church, supporting and opposing the ban on the use of the Ouija board, the board of directors of the mother church in Boston, a movement has been set on foot, to exclude all official literature of the church, including the Christian Science Journal, the Christian Science Sentinel, from the church reading rooms.

As an expression of congregational sentiment on the proposition, which is aimed at the board of trustees of the Christian Science Publishing Society, and is largely a result of litigation of the last fifteen months in the Massachusetts courts, the church has decided to exclude the periodicals, and are not permitting their distribution in their churches and reading rooms, it was admitted tonight by George M. Davidson, chairman of the New York State Lodge, First Church of Christ, Scientist, February 7. In support of the mother church.

Mr. Davidson claims that wherever the question of exclusion is being voted on, sentiment is overwhelmingly in favor of the exclusion of the periodicals and the board of directors.

NEW YORK CHURCHES ACT.

Four New York churches already have decided to exclude the publications of the Christian Science Church. These are the First Church of Brooklyn, and the Second, Seventh and Tenth of Manhattan. The First Church of Manhattan will vote on the question next Tuesday night.

A conference of three of the largest congregations in Chicago has been called for Thursday, at which it will be decided if the membership of the faith in Illinois shall be called in meeting to vote on the proposition. The Oakland First Church of Christ, Scientist, has already endorsed the exclusion policy.

"The churches individually are not handling the periodicals published by the publishing society in Boston, because of the removal of those publications from the control of the board of directors," Mr. Davidson said tonight.

IN MRS. EDDY'S REQUEST.

"The periodicals (the Monitor, Sentinel and Journal, Le Herald, Der Herold and the Christian Science Bible Lesson Quarterly) shall be distributed to the churches of the board of directors," Mr. Davidson said tonight.

Mr. Davidson said that he had received a letter from Mrs. Eddy, the founder of the faith in her deed of trust. The will of the trustees brought against the churches of the board of directors, the latter from assuming jurisdiction in the publication of the church's periodicals in contrary to the church's policy, as set forth in the wishes of Mrs. Eddy.

All twenty of the congregations of the mother church in New York, said, "virtually have agreed to exclude the publications."

HOW MEXICANS ECONOMY NOW STEAL ESTATES.

(Continued from First Page.)

often in Mexico that a man whom one executive deported as pernicious automatically becomes "persona grata" to the general, who by court d'etat, assassination, revolution or other violent means, succeeds him in the Presidency. Personally, I have the record as a deportee: Gen. Beltran put me out in 1912 for divulging the story of the restoration of the area of primary importance for the establishment of the economic equilibrium of Europe and the restoration of normal trade conditions.

It will seem to some people that Americans should be only too glad to get out of a country in as unobtrusive a manner as possible. Mexico to be but this is not the case. There is a something in the land of Manana that winds itself about the heartstrings. Perhaps it is the never-failing courtesy of the natives, the beauty and comeliness of the women, the abundance of drink, gamble and everywhere satisfy one's desires without losing caste as in the case of the "hot spots" in the paucity of competition which enables the mediocre to make a fortune without the struggle which the same fortune would cost in the United States.

Perchance it is the picturesque of the Mexican life, and the feeling of superiority which Americans experience when living among the less civilized and cultured Mexicans. Whatever the explanation, the fact remains that having once quaffed the Atlix ambrosia, Americans and foreigners in general are loath to return forever to their native countries.

I would not wish to give the impression that civilization and culture are unknown in Mexico. In Mexico City and in several of the provincial capitals, there are nuclei of professional men who compare advantageously with their colleagues in any American or European city. Of all the Latin-American nations, Mexico has contributed the most to literature, music, painting and the other arts. But the great majority of these Mexicans are today exiled from their country, and are scattered among the members of the American colony usually in contact.

KING'S TROUSERS CREASED AT SIDE.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, March 9.—King George's latest photographs show that he has revived a fashion set long ago by his father, King Edward. His trousers are creased at the sides instead of down the center.

This style of crease never attained great popularity except among a few elderly courtiers, and tailors now say that in their opinion, men will stick to the front crease.

raw materials, and, if necessary in the opinion of the reparations commission, should be allowed to raise abroad a loan to meet their immediate needs of such amount and with such priority as the reparations commission may deem essential.

RECOVERY OF EUROPE.

The memorandum makes the following observations:

"The process of recovery of Europe must necessarily be slow, which cannot be expedited by short cuts of any description. It can be most seriously hampered by the dislocation of production, by strikes, lockouts and interruption of work of all kinds.

The civilization of Europe has indeed been shaken and set back, but it is far from being irretrievably ruined. The tremendous struggle through which she has passed, the restoration of her vitality depends on the tense strain of war in all her children, who have it in their own power to delay or accelerate the process of reconstruction.

INDUSTRIAL AFFAIRS.

"It is the hope of every government that improved conditions of livelihood and employment may be assured to workers. Taking the Allied countries as a whole, the recovery of industry has been remarkable. Nearly eighteen months have passed since hostilities terminated and the reaction which necessarily followed the tense strain of war is passing. The citizens of every country are once again resuming their normal occupations of industry and in their renewed labors the conference sees a clear sign of renewed prosperity."

The memorandum reviews conditions in Europe at length. It estimates the increased cost of living in the Allied countries at 120 per cent. Great Britain, 170, and France, Italy and Belgium, at 200 per cent.

In Russia, at 1,500,000; Poland, Rumania and the former Austro-Hungarian empire at 1,600,000; wheat sown in Rumania in December 1, 530,000 hectares, against an average before the war of 1,900,000 hectares.

COAL PRODUCTION.

It compares the coal production in millions of metric tons in 1913 and 1919 as follows:

Great Britain, 192 against 224; France, including Lorraine, 44 against 23; Germany, excluding the Saar region and Lorraine, 173 against 103; the United States, 517 against 495.

It considers the general extravagance as phenomena following all great catastrophes. It estimates the world's total war debt at 140,000,000,000 and points out that gold prices have risen as well as paper, instancing the increase in prices in the United States while

RESTORE FRANCE.

Seventhly: The powers represented at the conference have given careful attention to the special case of the devastated regions and more particularly of Northern France. The restoration of these areas is of primary importance for the establishment of the economic equilibrium of Europe and the restoration of normal trade conditions.

It is tent that the large sums required for this purpose cannot be made by the way of reparations, nor can the work of restoration be postponed until the reparations are received. The council recognized that the capital sums required for this restoration may be properly raised by market loans in anticipation of the reparations payments.

REPARATIONS.

Eighty: The powers represented at the conference have taken under consideration Article CCXXV and cognate articles of the treaty of Versailles and passages in the letter addressed June 16, 1919, by the Supreme Council to the peace delegates, which contemplate that Germany shall make proposals for fixing the total of the payments to be made by her by way of reparations and that facilities may be given her to obtain necessary foodstuffs and raw materials in advance of the payments being made by way of reparations.

The powers are agreed that it is desirable in the interest alike of Germany and her creditors that the total to be paid by her for reparations should be fixed at an early date. They observe that under the protocol of the treaty a period of four months from the signature of the treaty was provided during which Germany should have the right to make proposals of the kind referred to, and they are agreed that in the circumstances as they exist today such period should be extended.

Concerning Germany, the memorandum says:

AS TO GERMANY.

"It is most desirable in the interests of the Allied countries, no less than of Germany, that at the earliest possible moment the total of reparations to be made by Germany under the treaty of Versailles should be fixed and that, in accordance with the terms of the treaty and the reply of the powers to the German proposals, she should be enabled to obtain essential foodstuffs

PROGRESS MADE ON ARTICLE TEN

But Senate Carries Over as Unfinished Business.

"Equality Vote" Reservation Wins by Reoption.

Seventeen Democrats Join with Republican Vote.

WASHINGTON, March 9.—The reservation on equality of voting power in the League of Nations was readopted by a vote of 37 to 20 after it had been modified on motion of the Republican leader.

Seventeen Democrats voted with the Republicans. They included Senators Ashurst, Arizona; Chamberlain, Oregon; Henderson, Nevada; Myers, Montana; Nugent, Idaho; Phelan, California, and Pittman, Nevada.

In its original form it had been adopted in November by a vote of 55 to 28 with only eight Democrats supporting it. The reservation as adopted reads:

"Until part one, being the covenant of the League of Nations, shall be so amended as to provide that the United States shall be entitled to cast a number of votes equal to the number of its Senators and Representatives in Congress, or to any other number of votes which any member of the League and its governing dominions, colonies or parts of empires in the aggregate shall be entitled to cast, the United States assumes no obligation to be bound, except in cases where Congress has previously given its consent, by any election, decision, report, or finding of the council or assembly in which any member of the League and its self-governing dominions, colonies, or parts of empires, in the aggregate have cast more than one vote."

The United States assumes no obligation to be bound by any decision, report or finding of the council or assembly arising out of any dispute between the United States and any member of the League, if such member, or any self-governing dominion, colony, empire or part of empire united with it politically has voted."

ARTICLE X PROGRESS.

Article X, more than ever the dominating issue in the peace treaty fight, became the unfinished business of the Senate today.

Several Republican leaders, convinced that ratification would be impossible with their Article X reservation of last November unchanged, agreed on a substitute and made an active campaign to line up necessary Democratic support. But they did not succeed, and although the compromise negotiations will continue, there was little hope tonight of an agreement.

Republican Senators seemed confident that the new reservation would have the approval of Senator Lodge, the Republican leader. It was understood, however, that the Democratic leader, Senator Hitchcock had not assented to it.

Democratic Senators were slow in promising their support, while they weighed the meaning of the letter written to Senator Hitchcock yesterday by President Wilson, reiterating his opposition to any reservation which would impair "the full force" of Article X.

The new Republican reservation follows the general outline of that adopted in November, but it puts into different and more specific form its declaration regarding the article's obligations. Some Democrats were satisfied with it, but twenty-eight was the number of Democratic votes which its Republican advocates claimed for it, and it would require at least thirty and probably thirty-four for ratification.

It was indicated that President Wilson's new letter on the subject, although it failed to stop the compromise negotiations, had not been without effect in stiffening administration ranks against anything like the old Republican reservation. Democratic Senators disagreed over what the President would do in the event of a compromise ratification, and many declared their inclination to let the doubt resolve itself in favor of a conservative course.

REPUBLICANS DISCOURAGED.

So discouraged were the Republican leaders that they had not decided tonight whether their substitution would be offered at all in the Senate. They indicated, however, that they would not long delay action in the interim of compromise, and that the debate to begin tomorrow probably would last but a few days.

The way to consideration of the subject on the Senate floor was cleared just before adjournment by reoption, in a modified form, of the reservation on voting power in the League. As it finally prevailed, the reservation declared that until the covenant is amended so as to give equal voting power, the United States declines to be bound by decisions to which Congress has not previously given consent.

The vote on reoption of the voting power reservation was 37 to 20 with 17 Democrats favoring it, nine more than supported it in November. The only changes made were on motion of Senator Lodge of Massachusetts, Republican leader, a substitute offered by Senator Hitchcock of Nebraska, Democratic leader, falling 34 to 24, and by Senator McCormick, Republican, of Illinois, 57 to 19.

JOHNSON REPUDIATED.

The reservation on the subject urged last session by Senator Johnson, Republican of California, also was reintroduced by Senator Phelan, Democrat, California, but was voted down, 73 to 4.

In the debate on the voting power reservation Senator Lodge said that the President's letter had emphasized the features of Article X to which Republicans were objecting and thus had touched upon the vital agreements of the whole treaty controversy. The article Mr. Lodge described as a binding agreement based on "naked force," a characteristic which, he said, the President apparently regarded as essential, but which the Senate majority never would accept. He also criticized the President's references to France and to the Adriatic question.

TAKE LONG STEP.

In presenting the new draft to the Democrats, the Republican leaders were understood to have represented it as embodying the farthest step they were willing to take in the direction of compromise.

In these negotiations, both Senators Lodge and Hitchcock refrained

from taking an active part, but friends of the Republican leader declared they felt certain he would give his assent to the substitute. Mr. Hitchcock on the other hand, was represented as unwilling to accept the proposal.

It was announced today that a conference of some Democrats in favor of reservations would be held tomorrow at the office of Senator Owen of Oklahoma to "try and find some way out of the wilderness."

LODGE CRITICIZES WILSON.

Senator Lodge said he thought the President's declaration that the French militaristic element had been defeated at the Peace Conference, but now had regained control was "most unfortunate."

"I regret that the President also should have taken occasion to say something about Italy," he continued. "The President's declaration that Italy is based on considerations of military strategy. That is true. Since when has it become a crime for a nation to seek self-protection?"

Senator Lodge said he thought the President's statement that he was not willing to trust to counsel of diplomats "the working out of any salvation of the world," and continued:

"The whole Peace Conference was a collection of diplomats. The result was an alliance in which the representatives of all countries are diplomats governed by the interests of their own countries and by considerations of political expediency."

Senator Owen, Democrat, Oklahoma, who has voted for many reservations, said he refused to be a party to the defeat of the treaty or to its reservation.

The text of the modified Article X reservation, as it is understood to have been assented to by the Republican leaders, is as follows:

"The United States assumes no obligations to employ its military or naval forces, or to interfere in any form of economic discrimination to preserve the territorial integrity of political independence of any other country, or to interfere in controversies between nations, whether members of the league or not, under the provisions of Article X, nor to employ the military or naval forces of the United States under any article of the treaty for any purpose unless in any particular case the Congress, which, under the Constitution has the sole power to declare war or authorize the employment of the military or naval forces of the United States, by act or joint resolution so declare."

HOUSE IS CAUSTIC.

The League of Nations got into the House debate today on the army bill. Representative Harty, Democrat, Texas, complaining that Senate Republicans had blocked ratification of the peace treaty, declared that with the League in operation it would be unnecessary for the United States to have a regular army of 225,000 men and 17,420 officers as proposed in the bill. Representative Kearns, Republican, Ohio, in reply, declared that the War Department "prepared under the President's direction" an estimate calling for an army approximately twice as large.

JURY GETS CENTRALIA I.W.W. CASE SATURDAY.

PROSECUTION WITNESSES STILL REFUTING TESTIMONY OF THE DEFENSE.

MONTEREYO (Wash.) March 9.—Witnesses for the prosecution in the trial of ten alleged I.W.W. here for the murder of Warren O. Grimm, victim of the shootings at Centralia last Armistice Day, testified in rebuttal today that Eugene Barnett, one of the defendants, was not in the lobby of the Roderick Hotel during the shooting nor immediately thereafter. Defense has contended Barnett sat in the hotel lobby during all of the trouble. The State contends Barnett was in a room in the Avalon Hotel and shot into the marching ex-soldiers from the place.

Defense testimony to the effect that Loren Roberts, defendant for whom a plea of insanity has been entered, is not insane and was not insane at the time of the shooting and not in Centralia as the defense has contended.

The end of testimony is approaching, according to both State and defense counsel, and the case is expected to be given to the jury Saturday.

OSBORNE RESIGNATION FROM NAVY ACCEPTED.

WASHINGTON, March 9.—Lieutenant-Commander Thomas Mott Osborne's administration of the Portsmouth (N. H.) naval prison was commended by Secretary Daniels in a letter today accepting his resignation as a member of the

naval reserve force and prison commandant.

"The policy of helpfulness and hope which has characterized your administration will be continued," the Secretary wrote. "You have taught the navy and the country that prisons are to mend prisoners and not to break them. It must be a source of gratification to you that so many young men who had violated naval regulations or been convicted of wrongdoing, have found themselves through your friendship and leadership and that all over the country, in every walk of life, are making good."

WORK KENNEDY MINE; FIRE IS CONTROLLED.

JACKSON, March 9.—With the fire under control and safely held behind huge bulkheads, constructed by experts wearing gas masks, work has been resumed at the famous Kennedy mine, one of the largest gold producers in California. The night fire went on as usual last night and was announced this morning that underground operations will be resumed at once above and below the 1200-foot level, where the gas first became manifest, resulting in the underground hands being called out last Friday night.

The fire originally broke out in the Argonaut mine, adjoining the Kennedy, about a year ago causing a suspension of operations for some time. It was finally controlled behind a bulkhead and operations were resumed.

PARIS, March 9.—Lucien Poincare, widely-known educator, vice-rector of the Academy of Paris, died suddenly early today. He was a brother of former President Poincare.

Crane Arm Falls; Kills Three.

SEATTLE, March 9.—Three employees of the Skinner & Eddy Shipbuilding Corporation, were killed here today when an arm of a crane fell and struck them.

This Tells You How to Get Benefit of the Best Senna

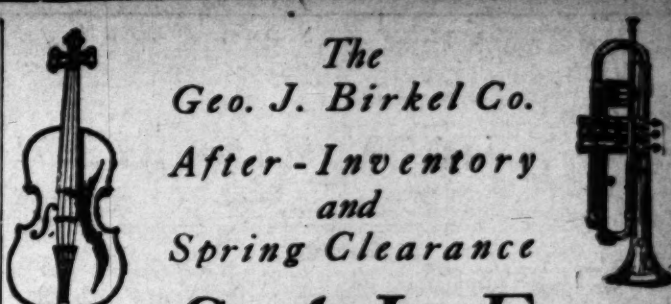

Finest Grade of Egyptian Senna Leaves used in compounding Dr. Caldwell's Syrup Pepsin.

PROMINENT importers and wholesale dealers in crude drugs and medicinal herbs gathered from all parts of the world do not hesitate to say that the market for the better grades of medicinal herbs, roots, oils, etc., is practically confined to the leading manufacturers of the so-called package medicines, who buy only the very best, and that the manufacture of Dr. Caldwell's Syrup Pepsin are the largest users of the best grade of Egyptian senna leaves in the world.

The potency of a tea brewed from senna leaves to relieve constipation has long been recognized, not only by the medical profession, but by the public generally; in fact, senna has been known and used in medicine for more than five centuries. The cheaper grades of senna, such as are usually sold at retail, have, however, a tendency to grip and cramp which makes their use unpopular with most people.

In Dr. Caldwell's Syrup Pepsin the finest Egyptian senna is combined with pepsin and other valuable agents, essential oils and pure cane sugar syrup to make an exceptionally valuable tonic-laxative for the relief of constipation and resulting disturbances of the stomach and bowels. The complete formula is plainly printed in English, French, and Spanish on every package. Thousands who formerly bought an inferior grade of senna leaves now use Dr. Caldwell's Syrup Pepsin instead. It is sold in drug stores everywhere.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 3711 Washington St., Monticello, Illinois.

Heavy Lie the Heads That Wear the Crown

Fortunately it is gratifying to know that most of the heads are now rapidly losing their crowns, and are also in immediate danger of losing their heads; unless they follow the teachings of the One, who is omniscient, and yet cares nothing for personal gain.

Our policy is not to seek supremacy at the expense of others, but to serve the public in the best manner possible, and the only way we know how to please the people today is by continuing to do exactly what we are doing—making good clothes for

The Suit **\$50.00** The Overcoat

Not to make any clothes would be neglecting our duty, and if we failed to make clothes for fifty dollars we would not live up to our original policy, which we adopted when we first opened this shop, viz.: to sell high-class tailoring at popular prices.

Although conditions have changed considerably since our opening, woollens and other materials having advanced in price from twenty-five to fifty per cent, still true to our policy, our price remains the same—fifty dollars.

For this price we sell every customer a strictly all-wool piece of goods, in any weave or shade, combine with it the very best of linings, and make it in our own shop, which is one of the most beautifully equipped on the Coast.

Every garment sold by this firm is guaranteed to be made strictly in accordance with the buyer's specifications, and to be a perfect fit or we do not accept a penny from him. It is our duty to see that every one gets a square deal and we pride ourselves that we perform our duty faithfully.

RAIL SHOPMEN NOT TO STRIKE

Chief of Union Speaks for
378,000 Workers.

Heads to Give Esch-Cummins
Bill a Trial.

Try for Better Wages in
Peaceful Way.

(BY A. P. DAY WIRE)

CHICAGO, March 9.—There will be no strike by the 378,000 maintenance of way men represented in a national meeting here, J. B. Malloy, a grand vice-president, said today. The grand lodge heads voted to abide by the decision of their president and executive board to give the Esch-Cummins rail bill a trial and to try for better wages by peaceable methods before resorting to a walkout.

The decision was reported today.

TALK RENT STRIKE.

(BY A. P. NIGHT WIRE)

NEW YORK, March 9.—The Central Federated Union's threat to recommend a general strike of 350,000 union men here unless immediate relief was provided against the high cost of living, especially rapidly increasing rents, was the subject of a conference today between Edward L. Hannan and Ernest Bohm, president and secretary of the union, respectively, and Mayor Hylan. Neither the union leaders nor the Mayor would divulge what occurred at the meeting.

WAGES RAISE COAL.

(BY A. P. NIGHT WIRE)

NEW YORK, March 9.—Demands which anthracite mine workers of Pennsylvania have asked operators to incorporate in the new wage agreement to be drafted to take effect April 1, were formally presented to the mine owners today by a committee of practical men was named to negotiate the new contract.

Unofficial opinions were expressed by operators that the increase in wages asked by the miners would mean a rise in the price of coal to the consumer if it was given.

Each side admitted that no definite decision would be reached until the award of the bituminous coal commission in the wage demands of the soft-coal miners is handed down at Washington.

The basis of agreement in the anthracite industry, it was stated, would depend largely upon the amount of the increase to be given the soft coal miners, and neither side is ready to commit itself until the bituminous award is announced. The principal demands formulated by a convention of the anthracite men last August, include:

SIXTY PER CENT. INCREASE.

That the contract wage scales be increased 60 per cent, and that the increase secured in the supplemental agreements of 1917 and 1918 be included in the wage scale as a basis upon which the 60 per cent. shall be added, and that all day men be granted an increase of \$2 a day.

That a work day of not more than six hours from bank to bank be established for all classes of inside and outside day labor and monthly men five days per week with time and a half for overtime and double time for Sundays and holidays.

A closed shop contract.

That wherever practicable coal shall be paid for on the legal coal basis, which is 2240 pounds in Pennsylvania and that dockage be eliminated.

The demands call for a two-year agreement. The present contract, for four years, expires March 31.

MINERS INTO POLITICS.

(BY A. P. NIGHT WIRE)

KANSAS CITY (Mo.), March 9.—The United Mine Workers of America, district 14, in biennial convention here today, were urged by speakers to go actively into politics, obtain control of daily newspapers creating public opinion favorable to organized labor, and elect members to State and national offices.

After more than two hours' debate as to whether the matter should be referred to a referendum vote of the district, the convention appropriated funds for the purchase of stock in labor daily to be published soon in Oklahoma City.

WAGE HANGS FIRE.

(BY A. P. NIGHT WIRE)

WASHINGTON, March 9.—Differences between members of the coal industry settlement commission and the bituminous coal miners' union were today before final formulation of the award, which must be returned by Friday. Realization that the settlement is imperative was said to carry assurance that a compromise finally would be reached.

The commission will not confine itself to a bare award on the several demands presented by miners and operators, but in its conclusions will strike deep at the fundamental economic difficulties of the bituminous industry and prescribe measures of correction.

REFUSE FINDINGS?

(BY A. P. NIGHT WIRE)

INDIANAPOLIS (Ind.), March 9.—The United Mine Workers of America will refuse to accept the findings of the bituminous coal commission unless a substantial increase in wages and improved working conditions are provided. It was inferred in a statement issued today from headquarters of the organization. Officials of the mine workers were absent from the city and those in charge of the offices refused to comment on the statement.

Unless a settlement of the controversy is made on such a basis, the statement said, the miners will not feel "that full justice has been done them." The bituminous coal commission was appointed by President Wilson to work out a suitable wage scale for the miners and report on any plans for improving living conditions after the strike of miners had ended.

GOVERNMENT FAILS.

"There has been a steady increase in the cost of living since the first of this year," reads the statement. "In spite of the fact that the government represented to labor last summer that the miners would be reduced and that the government would see to it that this was done. Further promises of reductions in the cost of living would fall on deaf ears, as far as the coal miners are concerned, because they have had their experience with such

promises in the past, all of which have gone unfulfilled."

RAIL WAGE MEET.

(BY A. P. NIGHT WIRE)

WASHINGTON, March 9.—Representatives of railroad labor and railroad officials will confer tomorrow on the question of wages for the first time in more than two years. Committees acting for the recognized railroad labor unions and the Association of Railroad Executives will meet to arrange for the formation of a joint board which will consider wage controversies.

The first work of the joint board as permanently organized will be to deal with the demand for a wage increase by all railroad workers which has been before President Wilson, and which was the subject of the "Railroad Wage" bill. The labor representatives and Director-General Hines for a month immediately prior to the termination of Federal control.

Mr. Hines saw the President today, and there were reports that Mr. Hines would deliver a message to the conference from the White House, but there was no confirmation.

While declaring that they would enter the negotiations "with a spirit of co-operation," railroad officials explained that any wage increase must be predicated of course, on the revenue they can gain through increased rates.

The labor groups were said tonight to have made their nominations to the railroad board. The shop crafts, comprising the third group, have chosen E. Wharton, president of the railway employees' department of the American Federation of Labor, and B. M. Jewell, who, while Mr. Wharton has been serving on the wage adjustment board under Federal administration, has been acting president of the affiliated railroad employees. The spokesman for the two other groups refused to divulge the names of their nominees, but probably will make them public tomorrow.

PHONE STRIKE RESUMED.

(BY A. P. NIGHT WIRE)

SACRAMENTO, March 9.—The strike of linemen and other electrical workers employed by the Pacific Telephone and Telegraph Company here was resumed today. About forty men are out, union officials said.

The strike was called off a week ago by vote of the local union and the men resumed work, but this night called by direction of international union of the union, who are directing the Coast-wide strike for increased pay and revised working conditions.

UNION CHIEF OUSTED.

(BY A. P. NIGHT WIRE)

CHICAGO, March 9.—Officials of the International Brotherhood of Electrical Workers here today expelled the union card of R. E. Shepherd for calling an unauthorized strike of employees of the American Railway Express Company here, today announced the other strike leaders would be expelled from the union.

Shepherd accused the international union of "strikebreaking" and charged that the union had broken an agreement to go on a sympathetic strike.

The employees struck for a wage increase of \$25 a month.

ORISKANY (Wis.), March 9.—Class-room teachers of this city to the number of 180 have organized a branch of the American Federation of Teachers here, affiliated with the American Federation of Labor.

TO INVESTIGATE GAS COMPANY.

Commission Starts Inquiry of
Santa Barbara Firm.

Approves Sale of Utilities in
Northern County.

Authorize Financing of South-
ern Supply Company.

(BY A. P. DAY WIRE)

SAN FRANCISCO, March 9.—The Railroad Commission instituted an investigation today on its own initiative into the service and quality of gas supplied by the Southern Counties Gas Company to the city of Santa Barbara, as a result of complaints made. Commissioner Brundage will conduct a hearing at the Santa Barbara Courthouse, March 21, at 2 p.m., when complaints will be heard. Officials of the utility were directed to be present.

The Federal Telegraph Company was authorized by the commission to issue \$2,391,775 of its common stock to the stockholders of the Poulsen Wireless Corporation, in accordance with a plan by which the latter will be reincorporated and its stock exchanged for Federal shares.

APPROVES JOINT TRACKS.

The agreement under which the Santa Fe and the San Diego and Arizona Railroad Company intend to make joint use of certain tracks and the station of the Santa Fe at San Diego was approved by the commission.

An order issued by the commission authorized the Southern California Edison Company to withdraw \$497,425 from a fund created by the sale of stock and held subject to the orders of the commission. The money is to be used to finance the acquisition of property by the company and to cover advances to other corporations in the Southern California Edison system.

MIDLAND UTILITIES SOLD.

Approval of the sale of the Santa Barbara and San Luis Obispo county gas properties of the Midland Utilities Public Service Corporation to the Santa Maria Gas and Power Company was granted by the commission. The order also gives the Santa Maria Company authority to charge the customers obtained through this purchase the same gas rate it has been collecting from its own customers, which is a higher rate than that charged by the Midland company. The two have been competitors in the city of San Luis Obispo. The price was \$388,000.

RULE MEASURE AGAIN.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, March 9.—The government has decided it is necessary to have a second reading discussion of the Irish home rule bill before the Easter recess. Andrew Bonar Law announced in the House of Lords yesterday.

Why? Because most mankind are shut-up in the house, or factory all winter and do not have the opportunity to breathe in good oxygen, the system is filled with toxins (poisons), and in consequence one feels blue, tired and miserable, perhaps "aches all over." The very best way to get rid of the poisons and to build up for another and better day is to obtain a vegetable tonic, made without alcohol, and known favorably for over fifty years as

ASK MAYOR TO HELP IN POTATO BOYCOTT.

FEDERATION OF LEAGUES IS URGED TO FIGHT HIGH COST OF LIVING.

The assistance of Mayor Snyder in curtailing the use of potatoes, and other ways of reducing the high cost of living will be sought today following a meeting of the Anti-High Cost of Living League at the City Hall last night. A resolution was adopted calling on the Mayor to appoint a committee of three to adjust prices of foodstuffs, and to urge the people to plant every available space with potatoes and other vegetables.

A letter was also sent to Mayor Snyder yesterday, by the Southwestern Grocers' Association, urging him to co-operate with it in efforts to limit the use of potatoes. The Mayor is asked to issue a proclamation calling on the housewives of Los Angeles to take measures to limit materially their consumption of potatoes.

It was also decided by the league last night, to call a conference of the executive officers of all the reform leagues of the city. It was agreed that greater results could be accomplished if all were to unite on a campaign. E. R. Muse, chairman, and Paul Francis Collins, secretary of the league, were instructed to arrange this conference where plans for a federation of reform leagues will be discussed.

The league which will be asked to meet with the officers of the Anti-High Cost of Living League are: The Rent Payers' Association, supporters of the Plumb plan, Consumers' League, Housewives' League, South Park Improvement Association, Central Labor League and others. The date of the conference will be arranged by Chairman Muse.

TWO STATES END WET ARGUMENTS

Massachusetts, Rhode Island Attack Concluded.

Counsels Hold Amendment is Revolutionary.

Supreme Court to Hear Kentucky's Views.

(BY A. P. NIGHT WIRE.)

WASHINGTON, March 9.—Presentation of arguments in cases from Rhode Island and Massachusetts attacking the validity of the prohibition amendment to the Constitution were concluded today in the Supreme Court. The case from Kentucky will be disposed of tomorrow.

Counsel for those attacking the amendment argued that it was revolutionary and an invasion of State's rights.

"You are now coming to a fork in the road, one leading to the power of amendment and the other back to the Constitution," Levy Mayer of Chicago, told the court, in opening for the Kentucky complainants. "The very proposition is staggering. There is no difference if we discuss whiskey, tobacco or cotton. I rise above the question that this deals with whiskey and dwell on the principle involved—can this Constitution be uprooted?"

Mr. Mayer denied that the amendment had been ratified properly in view of referendum provisions in numerous State Constitutions requiring such proposals to be submitted to the voters.

These conditions were denied by Solicitor-General King and Asst. Atty.-Gen. Frierson, who argued the amendment was properly adopted by Congress and had been ratified by three-fourths of the States. The Solicitor-General also said the amendment did not interfere with the functions of the States but gave the Federal government power to act with the States in enforcing prohibition.

DENY NEW JERSEY FLEA.

(BY A. P. NIGHT WIRE.)

TRENTON (N. J.) March 9.—Federal Judge Reelstad today denied the application of Christian Fiegenstein, Newark (N. J.) brewer, for a preliminary injunction against the enforcement of the Volstead act.

In upholding the constitutionality of the act and the Federal prohibition amendment, the court said:

"What Congress has the power to do in exercising an implied power it assuredly may do in the carrying out of an express power. The alleged loss to the plaintiff which it is said will necessarily result from an enforcement of the national prohibition act is incidental to the exercise by Congress of a constitutional power and it alone determines whether compensation shall be made for such loss."

REFERENDUM IGNORED.

One of the points that the amendment had not been ratified by the requisite number of States, the court swept aside the claim that in many States a referendum was mandatory before ratification could become effective, stating that the people of the thirteen original States, through their convention called pursuant to Article VII of the proposed United States Constitution, ratified it in "the form proposed."

"In so ratifying," the opinion said, "they delegated the power of amendment to their representatives, designating them and preserving the function of each. This delegated power the people have never re-taken. Having so delegated the power of amendment, it cannot be executed in any other manner than as prescribed, nor by any instrumentality other than those designated."

Chemist Discovers Quick Method Which is Safe and Painless.

R. E. Hixson, a Kansas City chemist, has devised what seems to be the simplest method of ending corns and callouses. It consists in merely painting them with a liquid known as Cactus Corn Compound.

This stops the pain at once and in a short time the corns or callouses drop off, leaving the skin unbroken. The method is positive, results, absolutely painless, safe, quick and convenient.

Anybody can use this treatment at home with assurance of satisfaction. A small bottle of Cactus Corn Compound, costing only a few cents at any drug store, is enough to remove dozens of corns. Druggists will gladly refund the purchase price if it fails.—(Adv.)

BERGDOLL STAYED AT HOTEL AS J. CARSON.

(BY A. P. NIGHT WIRE.)

NEW YORK, March 9.—Miss Ima Dayhoff, clerk in a hotel at Hagerstown, Md., testified today at the court-martial on Governor's Island of Grover Cleveland Bergdoll, wealthy Philadelphia, charged with evading the draft.

Miss Dayhoff identified the defendant as a patron of the hotel for many months while he is alleged to have been a fugitive. He was registered, she said, as "James Carson."

The witness also identified James E. Romig, ex-member of the Pennsylvania Legislature, as having registered with Bergdoll as "H. Watt."

Do you just Brush your Teeth—or Do you Clean them Safely?

SLAP-DASH tooth-brushing allows food particles to lodge between the teeth.

Decay sets in, protective enamel is destroyed, a cavity appears and finally the nerve is exposed.

Thorough "sweeping" between the teeth, twice-a-day, will help prevent this—especially with a safe, wholesome dentifrice like Colgate's Ribbon Dental Cream.

SENSATIONAL RISE IN INDUSTRIAL STOCKS.

UNITED STATES SUPREME COURT RULING IS CAUSE OF MATERIAL GAINS.

[BY A. F. DAY WIRE]

NEW YORK, March 9.—Shares of various industrial companies were likely to take their liberal stock dividend distributions yesterday's ruling of the U. S. Supreme Court registered further sensational gains in the early period of today's very active stock market session.

General Motors and Crucible Steel were again in the forefront of the dealings. General Motors opened at a gain of four points, but aggressive buying and selling activity extended its gain to \$32, an overnight advance of twenty-one points, and a total of seventy-three points from yesterday's minimum.

Other motor and steel shares were two to five points over final price of the preceding session. Shipping oils and leather goods were also up approximately ten points on the general advance, but rails made only modest gains.

RAILROADS FOLLOW.

Protectors of Maximity into the advance before the end of the first hour. General Motors falling back twelve points and Crucible Steel ten points.

Dealings up to 11 o'clock were on the largest and most diversified scale since last so far this year, the turnover approximating 600,000 shares.

Rails were included among stronger shares at noon, coalers taking the lead at a gain of one to three points with transcontinentals and minor shares.

Sales across small lots of Atlantic Refining, the Standard Oil Company, Intercity, at \$150, representing a gain of \$100 over last week's final price. The attention in connection with the probable recapitalization of high-priced firms.

ISSUE REFUNDING RULES.

[BY A. F. NIGHT WIRE]

WASHINGTON, March 9.—Strict regulations were issued today by the Bureau of Internal Revenue to safeguard the government in refunding loans to stock dividends the collection of which was held unconstitutional yesterday by the Supreme Court.

In applying for overpayments due them, individuals must set forth details of each dividend received, together with a statement of any subsequent sale of such shares and must present statements from the corporation distributing the dividends as to the amount paid and the year. When the claimant can show that the dividends were reimbursed or have the overcharge credited against tax installments to which they are liable.

The instructions require that the amount to be refunded by the government will be lessened greatly by crediting the individual with the amount of his first installment of which is due Monday.

ATTACKS MCADOO TAX REDUCING SAVINGS

[BY A. F. NIGHT WIRE]

WASHINGTON, March 9.—The suggestion of William G. McAdoe, Secretary of the Treasury, that a reduction of \$1,000,000,000 in Federal taxes be immediately and that bonds be issued to cover this amount, was attacked in the Senate today by Senator Kellogg, Republican, Minnesota. The Senator charged that the "McAdoo plan" was "even taking the suggestion seriously."

McAdoe no doubt truly represents the opinion of Wall-street speculators," he said, "but the financial and business men of the country are opposed to it. The majority of suggestions. Nobody has added more to the government's expense in the past than the Treasury. The idea of finance has always been to pay a debt by issuing a new bond."

Court Says Man of 61 is in Prime; Must Support Child.
Judge Taft told Peter W. Cook, who is 61 years old, that his age did not win him the court's sympathy. He said:

"Your age does not prevent you from doing a good day's work. You ought to be in your prime right now."

Cook was cited in court for failing to keep up payment for the support of his child. Mrs. Cook obtained a divorce from him December 15, 1918. He said he had paid \$5 a week until shortly after the decree was granted, but since then his eyes had failed him and he had to relinquish his position. The court ordered him to pay to the clerk \$5 of the \$5 he had with him. He also advised him to get work.

PICKS DAY TO BE SENTENCED.

Friday's Unlucky Day to go to Prison, Convicted Drug Peddler Tells Judge.

Casino Glenn, who is declared to be an old violator of the narcotic laws, pleaded guilty before U. S. District Judge Trippet yesterday to having a quantity of morphine and cocaine in his possession. When it was suggested that he be sentenced Friday, Glenn entered a protest, saying that he thought Friday was an unlucky day to go to prison and the matter went over until Monday afternoon. Glenn has been convicted before of a similar offense.

Mrs. Maurice Marshall Newman and Mr. Michael Lebedeff.

Motor Trip.
With Mrs. Charles Armstrong as chaperone, Misses Florence Marshall and Gladys and Elizabeth Armstrong are enjoying a motor trip and house party at Riverside. They will return today in time for Miss Mortenson's tea.

For a Visitor.
Miss Barbara Scoville of Pasadena was a charming hostess yesterday at a tea at which Miss Marion Gilderleeve of Portland was honor guest. Mrs. Richard Bryner and Miss Anne Wilshire poured and the table and house were adorned in mixed spring bloom. Forty guests were there.

Convalescing.
Mrs. Joseph Francis Sartori, who has been quite ill for a week, is convalescing.

For Mrs. Lutton.

DISCHARGE TWO SUN CULT MEN.

Children Refuse to Testify Against Leaders.

Cases Against Beeler and Gault are Dismissed.

Trial of "Master" Hanish Set for Next Month.

Gilman Beeler, local leader of the Mardaskan sun cult worshippers, and Arthur F. Gault, president of the organization for the world, accused of preparing false evidence in the case of Ottoman Zar-Adulst Hanish, self-styled "little master" of the cult, were discharged yesterday by Justice Hinshaw upon motion of Deputy District Attorney Clark. The dismissal followed an effort on the part of the prosecution to obtain testimony from four minor girls and one boy and from their parents. Upon advice of Paul Schenck, their attorney, the parents and children refused to testify on the ground that their answers might tend to incriminate them.

The charge grew out of an effort on behalf of Hanish, while he was at large after being indicted. The children signed an affidavit saying that the cult was a harmless organization and that the grand jury had forced them so to testify.

Hanish is accused in five indictments of statutory offenses against the five children. His trial is set for April 12 before Judge Willis.

INAUGURATE DIRECT SERVICE TOMORROW.

CARS WILL GO TO CATALINA COMPANY'S NEW TERMINAL AT WILMINGTON.

Direct passenger service to the new Santa Catalina Island terminal at Wilmington will begin tomorrow morning over the Pacific Electric lines. Cars will leave the Sixth-street station at 8:50 and 9 a.m. A spur track will take passengers to the door of the new terminal building. Going through the waiting-room to the platform, the gang plank is reached and the steamer for the Magic Isle boarded.

The big new terminal building at Wilmington to which the Santa Catalina Island Company has moved its business offices affords every convenience of direct passenger service and comfort. Freight and baggage may be checked at the door and tickets purchased at one of the windows of the octagonal ticket booth in the center of the big waiting-room.

Those motoring may drive their cars into the garage located in the east end of the building and enter the waiting room by the ticket booth. The garage is built to accommodate 300 cars. Machines may be left there for any length of time while passengers are Catalina. There is also a machine shop where autos can be repaired during their own.

The west end of the building is occupied by the freight offices; in the center are the waiting room and ticket booth, rest rooms, lunch counter and the company's business offices. The building is a modern, bank-like institution, gold letters designating the offices of William Wrigley, Jr., chairman of the board of directors of the Santa Catalina Island Company and the Wilmington Transportation Company. J. B. Patterson, president of the company, is in charge of the building. William W. Cowden, Jr., secretary, is in charge of the building. William W. Cowden, Jr., secretary, is in charge of the building.

TO LET "JOE" OUT.

Appeal is Sent Washington in Behalf of Jailed Indian Chief.

A modification of a sentence of forty days imposed upon "Joe Pete," so-called chief of the Morongo Indians, for contempt of court, is recommended in a communication sent the Department of the Interior, yesterday, by Asst. U. S. Atty. Bryan.

The Indian is in jail at Banning, having been arrested by Judge Pancho Lomas, who has charge of the domestic relations of the Indians on the reservation near there. Trouble occurred between two Indians about the wife of one, and Bill Pablo, the reservation marshal, took one of the disputants into custody. But "Joe Pete," it seems, thought it was his duty to interfere and settle the domestic difficulties of the tribe, so he took the case out of the hands of Judge Lomas, and proceeded to administer justice.

"Joe Pete" cannot understand why a chief should not be able to do as he pleases, and trouble is threatened, it has been thought best to recommend a mitigation of the sentence.

"JOYLAND" APPROVED.

Clune's Benefit of Devastated France Wins Strong Support.

Giving the approval of the executive officers of the American Committee for Devastated France to the plans being advanced here for staging a big spectacular production, "Joyland," at Clune's Auditorium, April 19 to 24, Myron T. Herrick, president of the committee, yesterday sent a wire to the committee-men here, expressing the hope that Southern California will support the undertaking.

Lucien N. Brunswig, California State chairman, wired back that there is wide interest in the plans of the committee, and added that enough money will be raised to go long way toward "converting No Man's Land into Joyland."

GIVEN DAMAGES.

Ziegmond and Rose Fisher must pay S. Sherman \$100 damages, according to the verdict of a jury in Judge Edmund court yesterday, for an alleged assault committed upon him. During the altercation Mrs. Fisher is said to have struck Mr. Sherman with a club.

NEW SAWTELLE CHARGE

WITNESSES DECLINE TO REPLY ON GROUND THEY MIGHT INCRIMINATE SELVES.

In the hearing of the petition to invalidate the election which, by a margin of three votes, consolidated the city of Sawtelle and the city of Los Angeles, it was asserted in Judge Works' court yesterday that the Wernitz family, consisting of E. E. Wernitz, his wife, daughter and son, voted out of the precinct in which they resided. If they did, it would be a penal offense, attorneys say. When City Attorney Burnell asked them the question, Attorney Delmas told them they need not answer on the ground that it might incriminate them, and Judge Works so instructed the witnesses. Each declined to answer. There was other evidence adduced in an effort to show that they voted in the wrong precinct.

The question now is whether they voted yes or voted no. A battle will be fought over the issue whether or not they can be asked how they voted.

It was asserted that a man's ballot was illegal because an election officer went into the booth with him and helped him prepare the ballot without having made affidavit, as provided by the law.

The court held that a voter had a right to assume that the election officer did everything necessary to qualify him to mark the ballot, and that a voter could not be disfranchised for that reason.

ROBS DURING FUNERAL.

Two More Homes Looted While the Families Are Absent.

Reappearing yesterday morning, the "funeral burglar" ransacked and looted the home of J. H. Gask at 744 North Andrews boulevard, and the residence of Albert J. Winters of 728 North Andrews boulevard. The thief escaped with jewelry and clothing valued at about \$500. According to the report filed with the police, the two houses entered by the burglar were for the time deserted, as both families were attending a funeral. The thief telephoned to both houses early in the morning to learn if the families would attend the funeral.

ACCUSED OF ROBBERY.

Accused of robbing Arthur Kern, 1528 West Sixteenth street, on February 11, Frank Jacobs, Harold Kliecknor and William Rose were held to answer yesterday by Justice Brown.

TEXAN MISSING HERE.

Failed to Return after Leaving Wife Monday for Theater.

Police yesterday started a search for E. H. Smart, aged 23, an oil-well driller from Texas, who started for a motion-picture theater Monday morning, leaving his wife at the Stowell Hotel, and failed to return or send any message.

The wife says her husband had \$150 in cash and \$100 in checks when he left. She fears foul play. The missing man is 5 feet, 3 inches tall. He has brown hair and gray eyes. He wore a green overcoat, blue suit and tan shoes.

OIL SHORTAGE FELT.

As Result Council will Consider Repeal of Specifications.

As a committee of the whole the City Council will consider the petition of the Independent Petroleum Marketers' Association for a repeal of present specifications for gasoline, stove and furnace distillate, because of the imminent scarcity of the fuel and to prevent independent refiners here from being driven out of business. This was recommended yesterday by the Public Safety Committee.

City Oil Inspector Blackmar objects to the proposed rescinding of these specifications and sent a letter to this effect to the Board of Public Works a few days ago. The letter was filed and Councilman Malard at yesterday's committee meeting called attention to the fact that apparently the Board of Public Works did not desire to give Mr. Blackmar's statement to the Council, but that a copy of it would be asked for to be laid before the committee of the whole.

JOE RIVERS LOSES.

By a decision of Judge Hewitt yesterday H. B. Slett, the father-in-law of Joe Rivers, lightweight pugilist, was awarded judgment for \$410 in a suit for \$750. This represents money advanced to Joe Rivers and expenses for himself and wife while they were sick. The court allowed Mr. Rivers \$370 credit on the total demand made by his father-in-law.

TO FACE TRIAL.

Charles Sullivan, accused of stealing \$129 in checks and \$20 in cash from Mrs. Emma Tierney, owner of a lodging-house at 310 1/2 East Fifth street, was held to answer yesterday by Justice Brown.

THE EVER-CHANGING FILM OF HUMAN EXPERIENCE

FORTIFY YOURSELF with an Investment Trust!

Human experience is fraught with changes and uncertainties. Business conditions fluctuate. We seem to go through alternating periods of prosperity and depression. Times, fashions, customs and precedents change with kaleidoscopic rapidity. Thousands of business men who seem to be just on the verge of success go down to failure as a result of these unavoidable conditions. Because of his inability to read the future, every business or professional man should have some dependable source of income aside from his business. Let us explain to you the advantages of the Investment Trust—and why it appeals to practical, hard-headed business men. Write or call for a free booklet which outlines the special services rendered by this institution.

DOINGS OF COAST LEAGUERS THESE DAYS.

SACRAMENTO, March 9.—Heavy rainfall held up spring training at the Seion ball orchard today. Rocky Middleton, who will occupy left garden again this season for the Yipper crew, has wired Manager Rodgers that he will arrive in this city Sunday. Rocky has not yet signed his 1920 papers. The Morning do not consider him a holdout, but believe that he will come to an agreement with them after he has talked over the terms of his contract.

OAKLAND, March 9.—Rollie Zeider, the bunion kid, arrived here today to play second base for the Oaks and captain the team.

BOYER HOT SPRINGS, March 9.—First Sacker Earl Sheely, who appears to have been visiting relatives in Seattle, and Mulligan, third baseman, swelled the ranks of Saints in training today.

HANFORD, March 9.—Wednesday will see the opening of a programme of four or five innings of regular baseball daily at the Seattle Coast League training camp here. Today Manager Clyde Wares and Trainer Chas. McIntyre agreed to pick Tannigans and Regulars on Wednesday afternoon and begin playing the game. This is expected to be more toward rounding the men into shape than a large amount of other forms of workout. Ray Bates will be captain of the Tannigans and Rod Murphy will lead the Regulars to the slaughter.

PORTERVILLE, March 9.—A. T. Walters of the Boston Americans is in the city visiting with his brother, G. C. Walters, before going to the south to join the Red Sox in Hot Springs Ark. He is accompanied by Mrs. Walters and their small son.

Vernon Secures a Third Baseman from the Boston Braves

"RED" SMITH TO JOIN BENGALS.

Eddie Maier Purchases Third Sacker Outright.

Boston Crack to Fill in Week Spot of Tigers.

Cubs to Play Vernon Baseball Nine Next Friday.

BY ED O'MALLEY.

Eddie Maier, the popular owner of the champion Vernon Tigers baseball club swung a seventh heaven smile yesterday afternoon when advised by Manager Esack that third sacker J. Carlyle Smith better known as "Red" Smith has been procured from the Boston Braves. "By Joe" substituted Eddie, "that is surely good news and gives us just the man that we wanted. Smith will round out our infield and strengthen us considerably at our weakest point."

Esack received a wire yesterday afternoon, that Smith had been turned over to the Vernons and that he would at once leave the East for Los Angeles. Smith was purchased outright. Owner Maier has been of late making extraordinary efforts to secure Smith. It looked for a while as if his endeavors in that line would prove fruitless owing to New York and Washington refusing waivers on the crack infielder. Smith comes highly recommended. He has been with the Boston Braves since 1914 and has been a big leaguer for seven or eight years.

A BIG HELP.

Smith batted around .300 for a number of seasons, but last year hit only .266. He is a cracking good fielder and is fairly fast. According to the Tiger's manager, the new-comer should prove a big help to his team as he fits in just at the right spot. With Smith on third, Esack will come pretty near having a big league team.

The Cubs are getting in fine shape for their hook up with the Chicago Cubs next Friday afternoon at Washington Park. This will be the first game of the season and a large foregathering of the fans is confidently expected. Rose and Dell will in all probability play for the Vernons, while Manager Mitchell of the windy city team, will about see Alexander and Vaughn. Esack will try "Big" Moore at third base, but apart from this, he will line up his team about the same as he did last fall.

The Cubs come here greatly strengthened over the aggregation that visited the Golden West in 1934. With such players as Herndon and Robertson in their list of players the aggregation should be one of the best in the country. Be this as it may, local fans are sure to see some high class diamond sport next Friday, Saturday and Sunday. On these days the Cubs play the Tigers and on Monday hook up with the Angels.

Hughes High evened scores with Stubby Edington when the crack left-fielder's man hung it on Eddy's club. 4 to 3 yesterday afternoon in a seven innings Tiger saunter. The game was featured by some heavy clouting, with Edington, Schneider and Red Oidham the bright particular stars.

POKES LONG ONE.

Stubby's poke in the second inning went clear to the third base and was a regular homer. The ball was cleanly handled and relayed cleverly, but Eddy beat the throw home by a foot or two. Schneider landed one to deep center and should have circled in safety, but Pete was stricken with the Oregon boot near third where he had to pull up for a sip or two of ozone.

In the second inning Sammy Ross in trying to take home on a ball that got past Babe Horton, bumped into De Verner at the plate and turned a somersault landing heavily on his knee. He writhed in agony for a spell and it was thought he had broken his leg, but he rallied a little later, and when carried to the dugout soon recovered none the worse for the mishap.

EXCITING EVENTS IN TOMBSTONE GOLF

(OFFICIAL CORRESPONDENCE)
REDLANDS, March 9.—Twenty-six of the golfers of the country club took part in the Tombstone mixed foursome sweepstakes, which was won by Mrs. G. W. Wilder and Dr. H. T. Joy, her partner. The clever putting of Mrs. Wilder and long driving of Dr. Joy won the day for them.

Mrs. D. C. Leferts and Raymond Hornby took second place in the tournament, which proved to be one of the most exciting of the season. The results follow, the contenders finishing in the order given, the handicaps also being named:

BASKETBETS SHOW FAST IN PRACTICE GAMES.

(BY A. P. NIGHT WIRE)
ATLANTA (Ga.) March 9.—Fast work in practice games today by the sixteen basketball teams here for the national A.A.U. championship tournament, indicated that the event would be hard fought. Games will be played afternoon and night beginning tomorrow. All entries will play either Wednesday or Wednesday night, the Los Angeles Athletic Club, present titleholders meeting the Louisville five on the first day. All sections of the country are represented.

Cafes Close Early; Strike Cause.
(BY CABLE AND ASSOCIATED PRESS.)

LIVELY DOINGS AT ANGEL CAMP.

ness about 10 a.m., when a hand car, containing seven cholos, arrived from Perris. They were rheumatic cholos coming down to take the water. But the handcar got from under their control coming down the grade and rushed through the town with the now-frantic cholos at terrific speed. They managed to bring the handcar to a standstill just before it jumped off the end of the track at Temecula. The cholos are now working their way back to Elsinore under their own power.

When the handcar dashed into Temecula, Conductor Haynes was surprised. He thought that a freight train was making an early call on him.

Mr. Haynes runs the passenger train from Riverside to Elsinore, but lives in Temecula. When he reaches Elsinore he is through with the passenger train, but generally takes it on down to Temecula with him for the night. It isn't a good idea to leave a passenger train lying around loose these nights, or anything else, for that matter. Somebody stole five tons of beans out of a barn near Murietta the other night, according to a current rumor. This is believed to have been the work of pick pockets. Only a light-colored gentleman could steal five tons of beans without making a noise. I have a safe rule to regard every person you meet as a burglar, until proven otherwise.

Ote Crandall, and his family, had a narrow escape today. They were out driving when their car stuck right in the middle of the railroad

"PROS" IN GOLF EXHIBITION TODAY

Four professionals who played in the open championship golf tourney on the Annandale links will meet in a four-ball exhibition match over the Los Angeles Country Club course this afternoon. John Black, winner of the Southern California title, and Bob Black will play McDonald Smith of San Francisco and Harold Sampson of Del Monte for a purse of \$150. Both the Blacks hail from the bay region, John being the Claremont club "pro" and Bob occupying the same capacity at the Sequoyah club. The match is scheduled to start at 1 p.m.

HORSE SHOW IN APRIL
Dr. S. E. Kramer and Capt. S. A. Purviance, representing the Santa Barbara Horse Show Association, are in Los Angeles for the purpose of interviewing local and eastern horsemen who have entered their horses in the show.

The second annual Santa Barbara Horse Show, which will be held in the early part of April on the grounds of the Ambassador Hotel, from present indications will be an even greater success than the one of last year.

... and at the Hippodrome

A fact:

At the New York Hippodrome, drawing over three million theatre-goers annually from every corner of the country, Fatima is not merely the largest-selling cigarette—it actually outsells any other by more than two to one.

EATIMA
A Sensible Cigarette

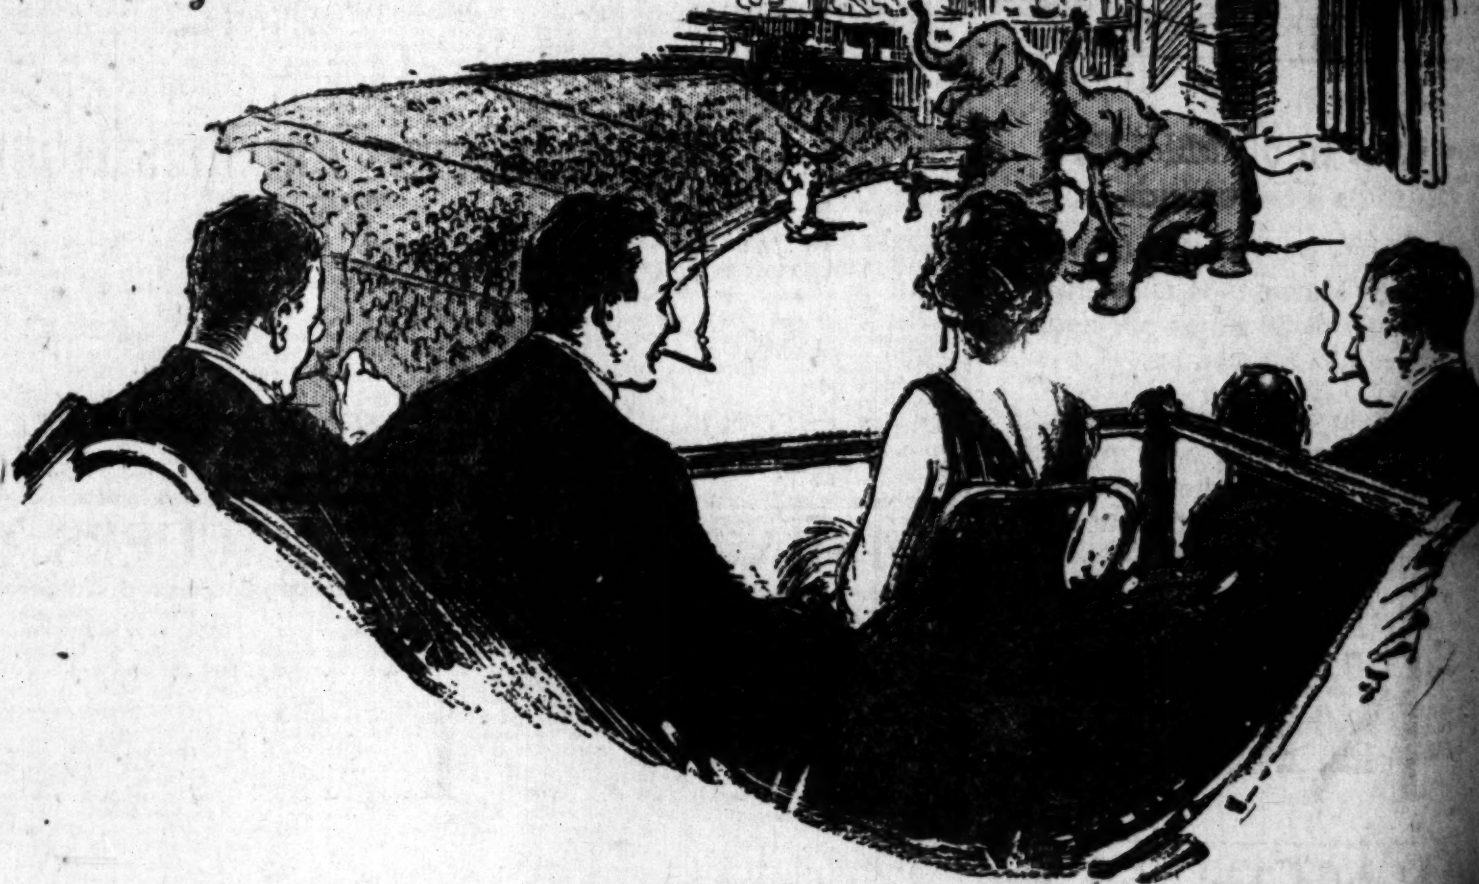

"Just Enough Turkish"

A Hippodrome audience may truly be called "representative" of the whole United States—so this day-after-day preference for Fatima is highly significant.

For one thing, it shows the broad sweep of Fatima's popularity. But—more important—it indicates that men generally are growing more sensitive to the taste-effect of too much or too little Turkish tobacco in their cigarettes.

Fatima's "just enough Turkish" blend, in other words, is the one feature which sets it definitely apart from all other cigarettes—and which accounts for its leadership at so many famous places.

OFFICER GOES WRONG.

Here of World War Gives Himself up as Deserter.

FRESNO, March 9.—Capt. Henry K. McGinn, deserter from Camp Gordon, at Atlanta, Ga., gave himself up at Bakersfield yesterday and wired U. S. Deputy Marshal Sid Shannon of this city that he had deserted from the army, taken \$1200 in government money, and disappeared with a woman.

McGinn is highly educated and has a wonderful war record. This it is believed, will weigh in his favor at the court-martial. He enlisted during the early part of the war and by diligent endeavor won the privilege of going to an officers' training camp, where he was given a commission as lieutenant. Going overseas he led in leading men under fire on various fronts. He was promoted to first lieutenant and later to a captain.

He was ordered sent back to Camp Gordon, with bail fixed at \$2500 by the United States Commissioner.

KING BESTOWS SIGNAL HONOR.

Albert of Belgium Compliments Dr. Hale.

Municipal Railway to Cost \$3,465,867, Says Report.

Heavy Tourist Travel Still Coming to Pasadena.

PASADENA, March 9.—Dr. George Ellery Hale, director of the Mt. Wilson Solar Observatory of the Carnegie Institute and organizer and chairman of the National Research Council of Scientists during the great war, was today honored by King Albert of the Belgians with the decoration of the Order of Leopold II.

The presentation of a medal of a Commander of the Order of Leopold was made to Dr. Hale at his residence, 425 Rose avenue, South Pasadena, in behalf of King Albert, by Charles Winsel, Belgian Vice-Consul in Los Angeles. Maurice Maeterlinck, the Belgian poet and playwright, who is now in Los Angeles, was among the notables in attendance at the presentation.

In making the presentation, Vice-Consul Winsel stated that Dr. Hale had been made a commander of the Order of Leopold in appreciation of his "conspicuous scientific contributions" to the success of the Allied cause in the war for his other war services and for his efforts in behalf of Belgian relief.

Dr. Hale, in his brief speech of acceptance, modestly received the decoration as a representative of the United States in the scientific conference at Brussels, but Mr. Winsel assured him that it was a personal recognition.

The medal of Commander of the Order of Leopold is a pendant suspended from a ribbon and is worn around the neck of the recipient.

Following the presentation the poet Maeterlinck made a brief address in French in which he paid tribute to Dr. Hale. Both Dr. Hale and Mr. Winsel spoke of the high scientific eminence in the realm of the sun in the world.

Among those mentioned there were present at the presentation: Mrs. Hale, wife of the astronomer; Mrs. Willoughby Rodman of Los Angeles; and Mrs. Katharine C. Watson of Pasadena, and John H. Pearson, secretary of the Pasadena Board of Trade.

The Belgian King for relief work; Louis Sautou, French Consul in Los Angeles; and Constant Franke and Jean Dausmy, former officers of the Belgian army.

COMMITTEE REPORTS.

The proposed municipal railway from Pasadena to Los Angeles can be built for a million dollars less than estimated by former City Engineer R. V. Orblson, according to a report from the city's special committee of engineers made public here today by City Commissioner John J. Hamilton.

The committee report estimates the cost of the proposed line at \$2,465,867, exclusive of the right of way. This would cut half a million from the Orblson estimate. The committee proposes to save the other half-million by changing the right of way to avoid two costly tunnels included in the Orblson estimate.

The engineering committee making the report comprised Franklin D. Howland, William Mulholland, former City Commissioner T. D. Allen.

TRAVEL FROM EAST BIG.

Heavy travel from the East will continue throughout March and April, according to estimates of Pasadena railroad, hotel and automobile men. One auto concern, renting fine cars to tourists, reports about 1000 reservations for its line up to May. Limited trains from the East continue to arrive in extra sections and the big Pasadena hotels are thronged.

TEMPORARY ORGANIZATION.

John McWilliams, Jr., has been named temporary chairman and E. R. Sorver temporary secretary of the merger of the Board of Trade and the Chamber of Commerce, pending working out of details by the consolidated board of directors.

JUDGE UPHOLDS LAW.

MORENO, March 9.—Judge J. C. Needham today upheld the constitutionality of a recent amendment to the Penal Code defining the powers of school trustees, thus permitting construction to proceed on the \$25,000 high school at Turlock, which has been held up by litigation for two years.

WHO DEMANDS RECALL?

Santa Monica Citizens Look for Mayor's Enemy.

LOS ANGELES, March 9.—Who is behind the petition demanding the recall of Mayor Samuel L. Berkeley? This is a question that is creating comment among prominent citizens, many of whom have been known as not favoring the Berkeley administration and a few of whom were defeated by Mr. Berkeley at the last election.

None of them had heard of the petition until they were questioned today. There was a growing sentiment this morning among many people against a recall campaign that "does not work in the open." Others believe that the petition is a general uprising among disappointed citizens, who do not believe that Commissioner Berkeley is competent. Mr. Berkeley's staunch friends say that his new term has started even more favorably than his last. The petition declares its purpose in the following words:

"We do aver that the said Samuel L. Berkeley, as a said Commissioner, is incompetent, is not representative of the wishes and majority of the citizens and electors of said city and that the general policy of his official conduct is in opposition to the wish and desires of the people of the city of Santa Monica."

In investigating for more specific causes for the recall it is thought by some citizens that some dissatisfaction with Mr. Berkeley may have arisen because of a recent decision on the part of the administration to increase Santa Monica's land value by \$2,000,000 in order to provide more revenue with which to raise the salaries of city employees.

RECOVER HORSES.

Imperial Valley Officers Go Into Mexican Territory.

EL CENTRO, March 9.—After a spirited chase across the international line, during which Imperial county officers penetrated several miles into Mexico, four horses belonging to M. Goodbody were recovered. Mr. Goodbody is a contractor for the Imperial Irrigation District. The animals were stolen early this morning by an organized band of Mexicans who crossed the line and drove the horses back over into Mexico.

Four mules belonging to the county also were stolen but had not been recovered up to a late hour tonight. The chase of the Imperial officers after the bandits became too hot and the horses were abandoned and were brought back across the line by the officials. Stealing of stock would amount to approximately \$11,500.00. Two hundred and eighty-one carloads of sardines have been

MURPHY THE GREEK TALKS GOOD "MEX."

CALEXICO, March 9.—"The border land is a place of unusual things, and where one sees sights and hears things that can't be seen or heard anywhere else," said Immigration Inspector Brases this morning. He explained: "Yesterday I was called to the Mexican customhouse over the line for a few minutes and there I saw, sitting in a Mexican office, a Greek whose name I know to be Murphy, conversing in very good Spanish with a Chinese. The Chinese was getting it all and coming back in just as good Spanish as a native-born Mexican."

shipped East, constituting a large portion of the season's pack. Actually 29,824,455 pounds of sardines were packed in the local canneries since December 1, according to the records of the California Fish and Game Commission.

That Monterey canners last week unloaded an enormous amount of sardines on the market at \$5.50 per case to compete with the local canners was the statement of a San Pedro packer today. The result of the flooding of the market by the Monterey canners was a drop to \$5.50 per case here.

FIRE AT CALEXICO DESTROYS COTTON.

CALEXICO, March 9.—Fire in the cotton yard of the Calexico compress burned fiercely all afternoon and destroyed a large number of bales of cotton. The compress was not damaged. It is estimated that \$100,000 worth of cotton has been destroyed, but the extent of the loss will be impossible to determine until the fire is extinguished.

END OF ACTIVE LIFE.

REDLANDS, March 9.—C. J. Shuttlesworth, aged 85, the father of Mrs. John F. Plak, one of the pioneer residents of Redlands, died at the home of his daughter here today. The body will be taken to Springfield, N. Y., for the funeral services.

ENORMOUS PACK.

All records for the sardine pack in the various harbor canneries were broken during the last three months. More sardines were packed here during this period than at any other similar period in the history of the industry. Local canners today estimated the season's pack so far to be about 225,000 cases.

With sardines selling at \$6.75 a case, the pack during the season would amount to approximately \$1,500,000. Two hundred and eighty-one carloads of sardines have been

LONG BEACH DISPUTE UP TO CITY COUNCIL.

WRANGLE OVER PARK TAKES FORM OF ORDINANCE, GOES TO CITY COUNCIL.

LONG BEACH, March 9.—Asking for the establishment of a park and the removal of the Long Beach, Attorney E. C. Denio today presented an ordinance to the City Commissioners. Because of the absence of E. E. Tischer, Commissioner of Public Affairs, who has charge of park property, the municipal session deferred action on the proposed law.

In presenting the ordinance, Attorney Denio read to the Commissioners the deed by which title to Pacific Park was conveyed to Long Beach by John H. Blakely, Lieut. Gov. Thomas Flint and the Long Beach Land and Water Company, July 5, 1888. Mr. Denio contended that to use the park for quail, croquet and other similar purposes was not in accordance with the wishes of the grantors as expressed in the deed.

Commenting on the proposed establishment of a police revolver range in the park, Attorney Denio said: "I would have no objection at all if the range pits were located at the south end of the park on the Cedar-avenue side and the target butts at the north end. This arrangement would place the quail and croquet lawns in the line of fire from pits to butts."

Definite action on the ordinance is expected to be taken Friday.

JACKIES STORM JAIL.

The naval authorities at San Pedro were appealed to today for assistance in solving the problem of handling sailors on shore leave in Long Beach from the vessels of the Pacific Fleet anchored at Los Angeles Harbor, following the second near riot here within a month involving the police and the bluejackets.

About fifty sailors stormed the police station this morning and demanded the release of two of their number who had been arrested for intoxication. Acting Sergeant Newbury refused to give the men up and the sailors threatened to take them forcibly.

The sailors dispersed, however, after Sgt. Newbury opened the police arsenal in full view of the visitors and ordered a squad of men to load the saved-off shotguns.

The naval authorities earlier this week promised double punishment to men caught violating the ordinances of this city in the future and Police Judge Hawkins stated this afternoon in turning the two men arrested for drunkenness over to the provost guard from the Idaho, that he would follow their cases and see what their sentences were. If not sufficient in the mind of the court, the judge said he would give the men the limit the next time they were found guilty of misconduct in Long Beach.
